Founded in Los Angeles by internationally renowned vocal instructor Tricia Grey, MM, Sing Like A Star Studios provides unparalleled training to aspiring and professional singers and songwriters in every musical genre. Sing Like A Star brings the world's most sought after vocal instruction and voice lessons to the greater Atlanta area with in-person lessons at our two conveniently located studios (Marietta 30068 and Alpharetta 30004-30009), and to the world via skype, ichat and speakerphone distance lessons.

Sing Like A Star educates, prepares and inspires a wide-ranging clientele from all genres of music. Rock, Pop, Country, Jazz, R & B, Gospel, Contemporary Christian, and Musical Theatre singers develop the vocal skills at Sing Like A Star® studios that allow them to shine in their chosen musical style.

We work with all levels of ability from beginning to advanced levels.

We also specialize in keeping the professional singer's voice healthy and strong, without changing their unique sound and style!

This vocal method (known as "mix") is the preferred training for hundreds of Grammy and Tony winners; it is the most sought after vocal technique in the music industry today. It is the vocal technique recommended by the producers of American Idol, The Voice, X- Factor, and Glee, along with many of the music industry's most respected producers.

Sing Like A Star singers deliver effortless power, amazing vocal control, great high notes, and authentic vocal styling with total consistency- no wonder Sing Like A Star trained singers are at the forefront of today's music industry. Sing Like a Star vocal training will help you to sing stronger, sing higher, and sing with total confidence- in any vocal style.

But Sing Like A Star singing lessons are not just for aspiring professionals; anyone who loves to sing should consider vocal training. “At Sing Like a Star Studios, we can teach anyone to sing, if they are willing to practice” says owner Tricia Grey, MM. “Many people think that singing ability is something you either have or you don’t- but nothing could be further from the truth. I have had many students through the years who have come to me with perhaps less ‘natural’ vocal ability, but with tremendous drive, discipline, and work ethic, who now have professional careers!”

ONE STUDENT’S STORY- FROM NON-SINGER TO BROADWAY WITH SING LIKE A STAR!

The following story is just one of the hundreds of success stories from Sing Like a Star students. Jennifer was a dance major at Pebblebrook High School when she came to Tricia, and did not consider herself a singer. She worked extremely hard and within one year, won the LEAD ROLE in Pebblebrook’s musical production against stiff competition. And now, she is ON BROADWAY! Here is the story in Jennifer’s own words:

My life has been a complete whirlwind of blessings this past year. As a senior at the Cobb County Center for Excellence in the Performing Arts at Pebblebrook High School, I had absolutely no idea that I would be cast in a Broadway National Tour shortly after graduating. I began taking voice lessons with Tricia when I auditioned for Hairspray at CCCEPA, and I have no doubt that she is the mastermind behind my success from that point on.

After playing Amber Von Tussel in Hairspray, Jolene Oaks in Dirty Rotten Scoundrels, Irene Roth in Crazy For You, and Audrey in Little Shop of Horrors at CCCEPA, I knew that musical theater was the career that I had to have. There was nothing more that I wanted than to pursue musical theater.

I began college at The University of the Arts in the fall of 2013, exactly one week before auditioning for the Broadway National and International Tour of Bring It On: The Musical in New York City with a song that Tricia had coached me on and helped me master. I was cast as Nautica with the understudy role of Danielle in the show, and have since been touring the United States. This summer we will be performing in Japan!

I am forever grateful for the faith that Tricia had in me just a year ago as a beginner. She shaped me into the singer that I am and constantly pushed me to my fullest potential and beyond. I am so incredibly thankful for everything she does!

Some months have five weeks and some have four, so your payment amount is adjusted accordingly.

Please check your spam/bulk folder if you don't see an email from us within 48 hours.

WHAT HAPPENS AT THE CONSULTATION/EVALUATION SESSION?

The introductory consultation/evaluation session is designed for you to meet briefly with Tricia or your Associate Teacher before you commit to the monthly lesson payment structure. It is not a lesson.

You will sing a few basic scales so we can evaluate your voice, and you will sing a portion of a song a capella (without accompaniment).. You will receive a professional diagnosis of your vocal issues, and a plan to address those issues. Based on the "Eight Steps of Vocal Development" concept from the textbook *YOU can Sing like a Star* by Tricia Grey, MM. Then you will review the studio policies and reserve your spot in the permanent weekly schedule. Payment will be made at this time to reserve the first four sessions, using the financial information from the online registration form. Please bring all paperwork (completed and signed) to this session.

HOW OFTEN WILL I TAKE LESSONS?

Generally, a minimum of one lesson per week is necessary to make vocal progress. Consistency will ensure that you progress more quickly. Students may take more than one lesson per week. You may take 1 hour, ½ hour, or ¾ hour lessons. Lessons are at the same time every week- you pick a time that works for you, and that slot is reserved for you with your monthly pre-payment. Although it is less effective, students may choose to take bimonthly (every other week) lessons, or may take single lessons when the studio schedule permits, at the higher rate of \$150 per hour. The best time spots are usually given to consistent weekly lesson students.

HOW MANY LESSONS WILL I NEED?

If you would like to be a professional singer, you should consider consistent and ongoing voice lessons your lifelong commitment. Although most students progress very quickly, vocal study is a process. You will see immediate and measurable results in your voice within 3-6 months of study at Sing Like a Star. With a year of this training, with at least a once weekly lesson (or more) and a minimum of 30 minutes of practice every day, and you will have a completely new and different voice. If you want to go pro, you will need to continue vocal study throughout your career. Consistency is the key to success in vocal training.

ARE THE LESSONS RECORDED?

Yes, the lessons are recorded to your iphone, ipad or other smart phone or to an SD card that you provide. SD cards are inexpensive and can be purchased at any office supply store. You can store about 10 hours of lessons on a 2 gig SD card and the sound is very good! You may need to purchase an SD card reader for your computer (about \$10). You can then store the lesson on your ipod, burn it to CD, or simply practice through the computer using speakers.

WHERE ARE YOUR STUDIOS?

We can find a convenient time for you! Save driving time and gas by taking internet webcam lessons using Skype, ichat or a speakerphone on any day. Associate teachers are at the Alpharetta studio and Marietta studios most days of the week..

WHY DO I NEED THIS TRAINING?

Very, very few people can teach themselves to sing. Most self taught singers incorporate incorrect muscles, and either remain "stuck" in their chest voice, or they sing breathy and

weak, using the sound they were taught in chorus class, which definitely does not work in the real world of music!

You need a strong "mix" to be able to compete in today's vocal market. The mix is the strong upper register, which creates a powerful and exciting sound. Sing Like a Star vocal training will teach you to sing with a healthy, yet powerful vocal production that will develop the sound YOU want to have for the music YOU want to sing!

Many voice teachers are still teaching the outdated "choral" or "classical" styles they were taught in school. They do not know how to train voices for rock, pop, and gospel styles. The saying "if you can sing classical, you can sing anything" is simply not true. You need a different approach to sound current.

There are other teachers who encourage pushing the chest voice too high ("belting"), which results in vocal damage, hoarseness, nodules, and ruined careers.

At Sing Like A Star™, you learn how to "mix", your range expands tremendously, you have great high notes, power and control, and best of all, you are doing all this in a healthy manner so your voice will be spectacular for a lifetime.

WILL I STILL SOUND LIKE MYSELF IF I TRAIN MY VOICE?

YES! Sing Like A Star™ vocal training will enable you to sing in any musical genre you choose, in a natural and free production, in any style- Rock, R and B, Broadway, Gospel, Jazz, Country, or Classical.

Sing Like A Star™ singers can be found on Broadway, in highly competitive university degree programs throughout the country, and on every major record label, singing in every possible musical style. Sing Like A Star™ vocal training teaches you to sing freely and effortlessly in any vocal style with stamina, consistency, emotion, control, and power. We teach you how to be the best YOU, with your unique sound and quality, rather than forcing you to sound like someone else!

In order to access the emotional powerhouse within, you need to have a reliable technique that will allow you to express all your emotions with complete confidence in your vocal instrument. You need to be free to perform from the heart. Training your voice at Sing Like A Star™ Studios will give you the vocal freedom to be a true artist.

WHAT ADDITIONAL TRAINING DO YOU OFFER?

We offer songwriting instruction, keyboard for songwriters, performance coaching, artist development, music theory and audition preparation.

Please visit the INDIVIDUAL [AVAILABLE SERVICES](#) page of the website for more information.

PERFORMANCE OPPORTUNITIES

Sing Like A Star™ Studios also provides performance opportunities for students with our Sing Like A Star™ Singers' Showcases, held every 3-4 months at a beautiful 250 seat professional theatre in the Atlanta area. All students are encouraged to participate. This gives students the chance to put into practice all the new skills they learn in private lessons. WHAT IF I DON'T LIVE IN ATLANTA, OR DON'T WANT TO DRIVE IN TRAFFIC?

We offer webcam lessons using I-chat (MAC) or Skype (PC) These programs are inexpensive or free to download, and easy to set up. We teach lessons this way all over the US, Europe, and many other countries! You can also take lessons by speakerphone, Facetime, or cell phone! Please visit the "Videos" page of the website to view a demonstration video showing several different distance lessons using Skype and I-chat with computers, and Skype through a cell phone. Some students simply call in on a speakerphone. All of these methods are effective and convenient!

HOW DO THE DISTANCE LESSONS WORK?

The process is just like the "regular lesson" process, but you don't have to drive! You need an ICHAT, AIM or SKYPE account, and high speed internet service.

At your lesson time, sign in to SKYPE (PC) or I-Chat (MAC).

WHY IS SING LIKE A STAR™ SO UNUSUAL?

Tricia Grey, MM, and Sing Like A Star™ Studios bring you over 30 years of professional performing and teaching experience in all areas of voice- pop, rock, R&B, gospel, and classical. We also offer songwriting instruction, demo recording and production, and preparation for university degree programs.

Tricia's unusual combination of 30+ years in the music industry as a professional singer/songwriter along with academic qualifications (Master's Degree in Music), years of scientific research in vocal pedagogy, success of hundreds of students, and referrals of qualified students to music industry connections make Sing Like A Star™ the only place for you! This is the only place you will learn the technique of MIX, used by commercial and Broadway stars worldwide, Mix teaches you to sing stronger- sing higher and sing like a star!

HOW QUICKLY CAN I EXPECT TO IMPROVE?

Most students are thrilled with their immediate and dramatic improvement in range, power and tone. The more consistently you practice, the quicker you will see results. The technique works very quickly, but only if you do your part- practicing for a minimum of 30 minutes every day, and taking consistent weekly voice lessons.

We record the lessons using the SD card, so you can practice at home.

WHAT CAN I DO TO REACH MY GOALS FASTER?

The comment we hear most often at Sing Like a Star is “I am learning so much more here, and moving ahead so much faster!” While each person’s progress is individual, based on how much you practice and whether or not there are bad vocal habits to unlearn, we do guarantee that we will make it happen quickly for you if you do your part- at least 30 minutes per day of practice. Consistency is the key to success in vocal training. A weekly lesson and daily practice for a year will guarantee the results you want.

The biggest hurdle for most busy people is time. You need to find 30 minutes a day to work at this, and that means doing the exercises, not just singing songs. Although not ideal, some people find that the only time they can do this is in the car. It is preferable that you stand in front of a mirror to practice. Then, just play the recorded lesson through your computer, ipod, or CD player, and sing along, loudly. The results are guaranteed!

For Parents: practicing is like any good habit- not always great fun to do, but the results are worth it. You will probably have to be “hands on” with your child about this- most kids are not going to do the vocal exercises (at first) on their own. I recommend it be the first thing they do after the school day. Though it is preferable that they practice in front of a mirror, you could also put the lesson on their ipod and have them practice in the car if you have a lot of drive time. Please don’t be a parent who leaves it up to the child, gets frustrated because the child doesn’t do it, and then quits! The results of consistency in weekly lessons and daily practice are worth it!

The smartest investment in your vocal future is a weekly Sing Like A Star™ voice lesson and daily practice!
