Sing Like A Star Studios brings the world's most sought after vocal technique to the greater Atlanta area with in-person instruction, and to the world via skype, ichtat and speakerphone distance lessons.

Sing Like A Star Studios educates, prepares and inspires a wide-ranging clientele from all genres of music. Rock, Pop, Country, Jazz, R and B, Gospel, Contemporary Christian, and Musical Theater singers develop the vocal skills and style chops at Sing Like A Star Studios that allow them to shine in their chosen musical style, rather than being forced to sing in a teacher's favorite style. We work with all levels of ability from beginning to advanced levels and we specialize in keeping the professional singer's voice healthy and strong, without changing their unique sound and style!

The Sing Like a Star vocal method is the preferred training for hundreds of Grammy and Tony winners; it is the most sought after vocal technique in the music industry today. It is the vocal technique recommended by the producers of *Made* (where Tricia was featured as vocal coach) *American Idol*, *The Voice*, *Before the Fame*, and by the music industry's most respected producers.

Sing Like A Star singers deliver effortless power, amazing vocal control, great high notes, and authentic vocal styling with total consistency- no wonder Sing Like A Star trained singers are at the forefront of today's music industry. Tricia Grey, MM, will help you to sing stronger, sing higher, and sing with total confidence- in any vocal style.

But Sing Like A Star vocal training is not just for aspiring professionals; anyone who loves to sing should consider vocal training. "I can teach anyone to sing, if they practice", says Tricia. "Many people think that singing ability is something you either have or you don't- but nothing could be further from the truth. I have had many students through the years who came to me with very little natural ability, who now have professional careers, because of their excellent work ethic and commitment".

Consider vocal study at Sing Like A Star if you are:

A professional singer who would like to maintain vocal health for life, and improve your vocal technique without changing your unique sound.

- + An actor/actress who would like to be a "triple threat".

 - + A singer who loves to sing popular music in today's styles, rather than a teacher's favorite style.

She was recently the vocal coach for the MTV show "Made", and is the vocal coach on a new show called "Before the Fame".

Originally from Los Angeles, where she was a professional singer/songwriter/voice teacher, she has been teaching, performing, and recording for over 30 years in Los Angeles, London, and New York. Tricia is now in Atlanta teaching the most sought after technique in the music business today. In the past 25 years she has performed with and taught many of the top names in today's music world. She is a recognized authority on the science of vocal pedagogy and vocal training, and created a 300 page Teacher Training manual for voice teachers throughout the world.

Tricia Grey's Sing Like Star technique will give you power, great high notes, freedom from strain, and a healthy vocal production for a lifetime of singing. It is the vocal technique used by over 130 Grammy and Tony Award winners. At Sing Like a Star studios, you will learn to sing stronger, higher, and with complete confidence, in all styles including gospel, blues, rock, pop, jazz, musical theater, classical, country and opera- with amazing high notes, great power and control, and a healthy vocal technique that will last a lifetime!

You will have a healthy, strong, and powerful voice, and freedom from vocal strain. You will be able to sing in your “chest” voice, and you will learn to “mix” into the higher registers so your voice will be smooth with no “register breaks”, and balanced throughout the range. Your range will extend dramatically. You will learn to sing with power, emotion, and flexibility, and you will finally have control over the "break" in your voice and your high notes.

Tricia strongly believes that songwriting skills are an essential ingredient of success in today's music industry. She has worked with some of the best producers and songwriters in the music industry in Los Angeles, New York, Nashville and London. Many of her students study both voice and songwriting with Tricia on a weekly basis. Her fast and easy songwriting method is amazing and even students who don't play an instrument are soon able to write their own songs.

LESSONS FOR CHILDREN: We are often asked "how soon should my child start studying voice?" The answer is that it's never too soon to start! Young children love to imitate sounds and sing, and often pick up bad vocal habits along the way. Why not start them off with the right vocal training and a vocal technique that will enable them to sing their favorite Theatre or Pop songs in a healthy manner that will lay the foundation for a lifetime of good singing?

For an example of one of Tricia's younger students who successfully competed on the TV show Starsearch in 1990, as well as several other Kid Stars trained at Sing Like a Star, please visit the [LESSONS FOR CHILDREN](#) page of the website.

This is just one example of the thousands of successful Sing Like a Star clients Tricia has trained over the last 30+ years.

After that, payments will be debited automatically for the entire month, on the 3rd of each month. Some months have 4 weeks and some months have five weeks, so your payment will vary accordingly.

Although consistent weekly lessons are the best option for vocal development, we now offer an every other week program, and single lesson options. For these options your first step is to sign up for the consultation/evaluation session by clicking on the [Get Started](#) tab of the website.

How many lessons will I need?

If you would like to be a professional singer, you should consider consistent and ongoing voice lessons as your lifelong commitment. Although most students progress very quickly, vocal study is a process. You will see amazing results in your voice within 3-6 months of study at Sing Like a Star. With a year of this training, with at least a once weekly lesson (or more) and a minimum of 30 minutes of practice every day, and you will have a completely new and different voice. If you want to go pro, you will need to continue vocal study throughout your career.

How are the lessons paid for?

We do not accept checks. Lessons are pre-paid by automatic debit on the 3rd of each month for the entire month, using the financial info you provide on the online registration form. Some months have five weeks and some have four so your payment amount depends on the number of weeks in the month.

How do I reserve an introductory consultation/evaluation session?

It's easy! You go to the [Get Started](#) tab on the website, (www.singlikeastar.com), fill out the online form, and then submit your \$25 payment. You will be contacted by email, at the address you provided in the form, with a time in the schedule. Consultations are only scheduled with prepayment.

What happens at the consultation/evaluation session?

The introductory consultation is designed for you to meet briefly with Tricia, before you commit to the monthly lesson payment structure. It is not a lesson. You will sing a few basic scales so Tricia can evaluate your voice to see where your technique is currently, and you will sing a portion of a song. You will receive a professional diagnosis of your

vocal issues, and a plan to address those issues. Then you will review the studio policies and reserve your spot in the permanent weekly schedule. Payment is made at this time to reserve the first four sessions. We will submit payment using the information provided on the online registration form. Please bring all paperwork completed and signed to this session.

How often will I take lessons?

A minimum of one lesson per week is necessary to make vocal progress. Consistency will ensure that you progress more quickly. Students may take more than one lesson per week. You may take 1 hour, ½ hour, or ¾ hour lessons. Lessons are at the same time every week- you pick a time that works for you, and that slot is reserved for you with your pre-payment. Although not as effective, we now offer every other week and single lesson options.

Are the lessons recorded?

Yes, the lessons are recorded to an SD card, so you can practice every day. You will be able to listen to the lesson on your computer using a USB card reader. You can store the lessons on your iPod, make a CD, or practice from your computer. SD cards are inexpensive and can be purchased at an office supply store. You can store about 10 hours of lessons on a 2 gig SD card and the sound is very good! Many students record directly to their i-phone, i-pad or i-touch using an app called i-talk.

Where are your studios?

There are two convenient Atlanta locations:

Studio 1: 320 High Meadow Drive, Marietta 30068, This in East Cobb, just OTP, off Windy Hill from I-75, very easy to get to from downtown.

Studio 2: 365 Brady Place, Alpharetta GA 30004-30009.

Sing Like a Star also offers distance lessons using the internet, (i-chat, skype, facetime) and speakerphone. You can take a lesson from anywhere!

What is your teaching schedule? The studios are open 7 days per week, until 9pm. Tricia is at the Marietta studio on Mondays, Tuesdays, Fridays, Saturdays, Sunday, and the Alpharetta Studio on Wednesdays, Thursdays. We can find a convenient time for you!

Save driving time and gas by taking internet webcam lessons using Skype, iChat or a speakerphone. The Associate Teachers are at the Alpharetta studio on the days Tricia is not there.

Why do I need this training?

Very, very few people can teach themselves to sing. Most self taught singers incorporate incorrect muscles, and either stay "stuck" in their chest voice, or they sing breathy and weak, using the sound they were taught in chorus class, which definitely does not work on the big stage! You need a strong "mix" to be able to compete in today's vocal

market. The mix is the strong upper register, which makes for an exciting sound. This training will teach you to sing with a healthy, correct production that will develop the vocal sound YOU want to have for the music YOU want to sing! Many voice teachers are still teaching the outdated "choral" or "classical" styles they were taught in school. They do not know how to train voices for rock, pop, and gospel styles, so you are wasting your time and money going to them. The saying "if you can sing classical, you can sing anything" is simply not true.

There are other teachers who encourage pushing the chest voice too high, and "belting" which results in vocal damage, hoarseness, nodules and ruined careers. At Sing Like a Star, you learn how to "mix", your range expands tremendously, you have great high notes, power and control, and best of all, you are doing all this in a healthy manner so your voice will be spectacular for a lifetime.

Will I still sound like myself if I train my voice?

YES! Sing Like a Star training will enable you to sing in any musical genre you choose, in a natural and free production, which can be applied to any style- rock, R and B, Broadway, Gospel, jazz, country, or classical.

Sing Like a Star singers can be found on Broadway, and on every record label, singing in every possible musical style. This training teaches you to sing freely and effortlessly in any vocal style with stamina, consistency, emotion, control, and power. We teach you how to be the best YOU, with your unique sound and quality, rather than forcing you to sound like someone else!

In order to access the emotional powerhouse within, you need to have a reliable technique that will allow you to express all your emotions without worrying about your voice falling apart. You need to be free to perform from the heart. Training your voice at Sing Like a Star studios will give you the vocal freedom to be a true artist.

What additional training do you offer?

We offer songwriting instruction, keyboard for songwriters, performance coaching, artist development, music theory and audition preparation.

Will I get to perform?

Sing Like a Star studios provides performance opportunities for students with our Sing Like a Star Singers' Showcases, held every 4 months at a professional 250 seat Theater in Atlanta. These are exciting and fun events that give singers of all ability levels the chance to improve their performing skills. Please visit the [PERFORMANCE OPPORTUNITIES](#) page of the website to see videos and pictures of past showcases.

Do you have connections in the music industry?

Yes, Tricia maintains her connections with the music industry in Los Angeles, Nashville, and New York, and she refers students who are ready to move forward with their careers.

What if I don't live in Atlanta, or don't want to drive in traffic?

We offer webcam lessons using Ichat (apple) or Skype (PC) These are inexpensive or free, and a webcam is inexpensive and easy to set up. We teach lessons this way all over the US, Europe, and many other countries, and it really works! You can even take lessons by speakerphone, or cell phone!

How do the distance lessons work?

The process is just like the "regular lesson" process, but you don't have to drive! You need an i-chat or SKYPE account, and high speed internet service. At your lesson time, sign in to SKYPE (PC) or iChat (MAC). Many students take lessons from their phones using FACETIME or SKYPE. We also do lessons with speaker phone.

Why is Sing Like A Star the studio for me?

Tricia Grey, MM, and Sing Like A Star studios bring you over 30 years of professional performing and teaching experience in all areas of voice- pop, rock, R&B, gospel, and classical. We also offer performance opportunities, songwriting instruction, demo recording and production, and preparation for university degree programs. The unusual combination of 25 years in the music industry as a professional singer/songwriter along with academic qualifications (Master's Degree in Music), and referrals of qualified students to music industry connections make Sing Like a Star studio the only studio for you!

How quickly can I expect to improve?

Most students are thrilled with their immediate and dramatic improvement in range, power and tone immediately! The more consistently you practice, the quicker you will see results. The technique works very quickly, but only if you do your part- practicing for a minimum of 30 minutes every day, and take consistent weekly voice lessons. We record the lessons using the SD card, so you can practice at home.
