Sing Like A Star Studios is the premier source for voice and songwriting instruction in Atlanta- and throughout the world with online singing lessons- where you will:

- Sing higher and stronger with NO vocal strain!
- Eliminate voice breaks!
- Sing well in the style of music YOU like-R & B, gospel, musical theatre, rock, pop, country, Contemporary Christian, jazz!
- Sing riffs, runs, and licks- with style!
- Record in the studio!
- Write your own songs!
- Develop your performing skills and artistry by performing in professional showcases!
- Sing with the vocal technique used by today's top recording artists and Broadway stars!
- Develop the power, consistency, range, flexibility, and natural sound most sought after by the music industry's most successful producers!

Founded by renowned vocal coach Tricia Grey, MM, SLaS provides unparalleled training to aspiring and professional singers of every musical genre. Sing Like A Star brings world-class vocal instruction to the greater Atlanta area with in-person lessons at our [two conveniently located studios](#) (SLaS East Cobb in Marietta 30068 and SLaS Alpharetta 30004-30009), and even more convenient vocal training from anywhere in the world with [online voice lessons](#) which are one-on-one online lessons that are recorded (video and audio) and emailed to you so you can practice! You can have the world's best vocal training delivered right to your home, car, office, or hotel!

SLaS inspires, empowers, and educates a wide-ranging clientele from every musical category. Rock, pop, country, jazz, R & B, gospel, contemporary Christian, and musical theatre singers develop the vocal skills at Sing Like A Star Studios that allow them to shine in their chosen musical style.

This is world-class training for contemporary and popular styles of singing, based on science. It is bel canto training for the modern singer. We develop and coordinate the muscles that *should* be used in singing, known as intrinsic muscles, and we teach you to *stop* engaging the muscles that get in your way, which are known as extrinsic interfering muscles. We build brand new neuromuscular responses that, with practice, become life-long good habits. **Over time your voice begins to function effortlessly; things that used to be hard for you to sing become amazingly easier with this process.**

We work with all ability and experience levels from beginning to advanced singers. We specialize in keeping the professional singer's voice healthy and strong, without changing their unique sound and style!

Sing Like A Star singers deliver effortless power, amazing vocal control, great high notes, authentic vocal styling, and incredible consistency- no wonder Sing Like A Star trained singers are at the forefront of today's music industry. Sing Like A Star vocal lessons will help you to sing stronger, sing higher, and sing with total confidence- in any vocal style!

But singing lessons are not just for aspiring professionals; anyone who loves to sing should consider vocal training at Sing Like a Star Studios.

"At Sing Like a Star Studios we can teach anyone to sing- if they are willing to practice" says studio owner Tricia Grey, MM. "Many people think that singing ability is something you either have or you don't- but nothing could be further from the truth. I have worked with several students through the years who did not begin with a great natural vocal ability but had tremendous drive, discipline, and work ethic who now have professional careers!"

Consider vocal study at Sing Like A Star Studios if you are:

- A professional singer who would like to improve your vocal technique without changing your unique sound.
- An actor/actress who would like to be a triple threat.
- A high school student who would like to get the lead in the musical, make All-State, or be accepted into a competitive university or conservatory program.
- A younger singer who loves to sing popular music in today's styles, rather than a teacher's favorite style.
- An aspiring professional singer auditioning for musical theatre roles.
- A rock or pop singer who is blowing your voice out in your band, or hoping to land a record deal.
- A pop, rock, jazz, R and B, gospel, or country singer who wants to keep your unique sound while improving range, power, flexibility, and style- riffs and runs.
- A musical theatre singer wanting to make it on Broadway.

- A Contemporary Christian or church choir singer.
- An aspiring songwriter who wants to learn how to write hit songs.
- A person of any age with a bucket list who has always wanted to learn how to sing.
- Anyone who loves to sing!

We even have a special program for very young singers (ages 3+)

Our [Lessons for Children](#) and LITTLE STARS programs (for ages 3-8) are headed by Associate Teacher Elaine Drennon Little, MFA, MEd, who is a 28-year veteran of elementary, middle school, and high school public school music teaching. Our younger singers get a very basic exposure to the SLaS vocal technique while playing rhythm instruments, moving, dancing, clapping, singing, playing the piano, and generally having fun! Elaine has a real love for bringing music to younger singers! Our lessons for children program combines the best of proven educational principles with vocal and musical development.

Whether you are a young singer, a professional, or just have a bucket list, Sing Like A Star vocal training will make your dreams come true!

Some questions for you: Have you ever taken a voice lesson and left that teacher's studio wondering what the purpose of the lesson was? Have you taken endless lessons without seeing the improvements you were looking for? Does the process of improving your voice seem mysterious? Has your teacher ever explained exactly what is going on with your vocal folds and the rest of the vocal mechanism when you sing?

Often vocal training is presented with undefined objectives, vague feedback, and no plan for developing specific muscular coordination; these ineffective lessons consist of a random and ineffective "warm-up" followed by numerous repetitions of a song. They deliver little actual vocal improvement because they are not targeted at improving specific muscular coordination and efficiency.

At Sing Like a Star we have a better method. Our SLaS training is based on cutting-edge research in vocal science- applied to contemporary singing styles. Sing Like a Star methodology is based on specific objectives and definable outcomes. It is a sequential and planned program of skill building based on [The Eight Steps of Vocal Development](#), the foundation of the book ***YOU can Sing Like a Star!*** by Tricia Grey, MM.

At SLaS we teach mix and balanced registration- bel canto singing for contemporary singers! This is the natural, contemporary, and powerful sound you hear Beyonce, Demi Lovato, Katie Perry, Bruno Mars, Sutton Foster, and Shoshona Bean (of Wicked) singing with. It's powerful and exciting, yet balanced and healthy.

The Eight Steps of Vocal Development is based on sequential skill-building. Working through this program you will create a completely new voice- one skill at a time! As you progress through [The Eight Steps of Vocal Development](#) you are building efficient muscular coordination, eliminating your old bad habits and replacing them with good ones. **Anything you want to achieve with your voice can be done- one step at a time.**

We believe in **defined and specific objectives** for each step of your development. You will always know how far you have come on the path of vocal training and what your next goal will be; your teacher will be glad to discuss these objectives with you so you will know how you are doing.

Most importantly for the singer; you will soon be able to SING like you never dreamed you could sing! **You will suddenly find your voice doing things you never thought it could do- things that formerly seemed impossible are now easy for you because you have trained the correct vocal muscles to function efficiently.** AND you can learn how to sing with style! You can learn how to sing great riffs and runs- if that is your preferred style-and where those riffs and runs come from, so you can learn to create your own improvisations rather than copying another artist.

In addition to world-class singing lessons and vocal instruction we offer **performance opportunities** in a beautiful state-of-the-art professional theater. Our [Sing Like a Star Singers' Showcases](#) enable students to combine their new vocal technique with performance skills and they are great fun too!

At Sing Like A Star Studios you have many options to learn the world's most valuable vocal technique:

1. In-person lessons: You can take lessons in-person at either of our [two convenient studio locations](#),

2. Online lessons: For busy and over-booked people, this option is so convenient! You can take one-on-one [online voice lessons](#) through your computer, smartphone, or i-pod touch. This approach is very effective- almost like being there in person, especially with the platform we use, Webex. This is a great stress and time saver! Save driving time by [studying from home](#) with [online one-on-one voice lessons](#). Technology now makes it possible to have a voice lesson from anywhere in the world! Even our busy local students often use the internet distance training option, combined with in-person lessons whenever they can get to the studio. We teach lessons all around the world with Webex. It's much easier for you, the client than skype, and it doesn't drop calls. You just get an email that contains a link and a meeting number. Click the link, type in the number, and you're in! A video/audio recording of your lesson is sent to you after the lesson. With today's technology, it's almost like being there in person!

3. Speakerphone: You can even take lessons through a speakerphone!

4. Lessons for Less: If you can't afford lessons with Master Teacher Tricia Grey, MM, you can learn the same great vocal technique by studying with one of our highly qualified, trained, and educated [Sing Like a Star Associate Teachers](#). Our Associate Teachers have music degrees, many years' experience teaching, years of professional performing as singers, and they have been trained personally by Tricia Grey to teach the Sing Like a Star vocal method. They pass rigorous testing in order to become and remain certified to teach at Sing Like a Star Studios.

In addition to world-class vocal training we offer **piano, guitar, and songwriting instruction as well as artist development, performance, and pageant coaching!**

13. Do you require practice?

We require 20-30 minutes practice daily. You will practice by singing along with your recorded lesson. Singing songs is not practicing. Like athletes, singers must exercise the vocal muscles daily to see growth and development. We give you the tools- a planned program of skill building through specific exercises (NOT just a "warm-up")- but you have to put in the work by practicing the exercises daily to see the results. It's a partnership!

Parents will have to be committed to being pro-active in scheduling and monitoring practice sessions. Even if a child loves singing, most children are not able to be disciplined about daily practice on the exercises, which is the only way change and improvement occurs. You must be an active partner in this process!

To understand why focused, mindful, daily practice is so important:

FAQ

Below are just a few more of the most commonly asked questions.

WHAT IS THE SLaS METHOD?

Sing Like A Star Vocal training is unlike any method in existence today. The SLaS method is based on balanced registration and mix- *bel canto* training for today's contemporary vocal styles! This world- renowned vocal development technique will eliminate straining and vocal breaks. You will learn to sing from very low to very high with a consistent vocal quality. You will develop powerful high notes, effortless control, and the contemporary vocal quality of today's artists with SLaS vocal training!

Your voice will be strong, connected, and balanced, with dramatically increased range, power, and control. You will be able to sing any style of music you choose, with a healthy, flexible, and powerful sound. You will learn to sing licks, runs and riffs for R & B or gospel styling. At Sing Like A Star Studios you will become a confident singer because you know your voice will work correctly- every time! **You will learn to be the artist you always dreamed you could be.**

You will sing the style of music YOU love to sing rather than a teacher's favorite style of music. We believe singers should be empowered to sing in the styles they prefer; we teach all styles- rock, gospel, R & B, musical theatre, contemporary Christian, pop, jazz, and country.

You will also learn to be a great performer- a very important skill! You will have the opportunity to perform in the Sing Like a Star Singers' Showcases, held every spring and fall at a professional theater. Singers need a goal and a chance to incorporate performance and vocal technique skills as they improve. The more you perform, the better performer you become. Our Sing Like a Star Singers' Showcases are just the place for singers of all experience levels from beginner to professional to evolve and grow!

WHAT IS MIX and BALANCED REGISTRATION?

The **mix and balanced registration** method is the preferred training used by major popular recording artists in R & B, gospel, country, and rock genres, as well as Broadway and musical theatre singers throughout the world. It is the most sought after singing technique in the music industry. Every singer needs powerful high notes that are similar in tone to the low notes, rather than flipping into a weak, breathy sound for higher pitches. That strong, powerful, ringing upper register sound is known as MIX! Singers who have great mix voices include Beyonce, Ariana Grande, Demi Lovato, John Legend, Adam Levine, Katy Perry, and Bruno Mars. **Mix is the most sought-after vocal sound in the music industry today, and Sing Like a Star is the place to learn it!**

Balanced registration means your lower register (chest voice) and your upper register (head voice) are equally strong, and you don't suddenly flip into a light and breathy sound when you start to sing higher- it all sounds like one, unified, strong and beautiful voice!

The SLaS vocal method enables singers to sing with power and control from the lowest notes to the highest notes with a powerful, consistent, and connected sound- the contemporary sounding vocal quality the music industry is looking for!

WHY DO I NEED THIS TRAINING?

1. You need this training because you can't teach yourself. Very few people can teach themselves to sing correctly. Most self-taught singers incorporate incorrect muscles, called the extrinsic digastric strap muscles (these are the ones we use for swallowing that pull the larynx upward), instead of relying on the intrinsic muscles. When you muscle up, you tend to stay stuck in your chest voice then strain like crazy when you try to sing higher notes until you crack, big time. That can be so embarrassing! Then if you want to sing even higher, you have to do it a breathy, weak sound called falsetto that does not match the strength of your lower register.

Or you may be the timid type of singer that sings everything with a breathy, barely audible sound. That doesn't work either! You need a strong **mix** to be able to compete in today's vocal market of contemporary music or musical theatre. **The mix is the strong upper register that sounds like you are belting, but feels easy! This is an exciting sound- it's the sound that all the stars in today's music business use- whether they are pop or musical theatre, this is the sound you need!**

And Sing Like a Star Studios is the place to get it!

2. You need this training because most of the vocal training that is available will not get you the results you want.

1. Often, vocal training is presented with vague or undefined objectives, little feedback, and very little if any real skill building; lessons consist of a random and ineffective warm-up, followed by numerous repetitions of a song, with little long-term improvement. This is not going to do much toward building new vocal skills. One thing you probably already realize is that, with other methods you haven't been getting much better. **At Sing Like a Star your vocal development is based on specific objectives and definable outcomes.** This means that teachers do lesson plans and written reviews of each lesson taught, assessing where the student's skill level is and writing specific plans for skill development, which are then reviewed and commented on by studio owner Tricia Grey, MM. This takes a lot of time for the teachers, but it is just one way we provide consistency in training, and student-centered teaching. That kind of planning, reflection, and sequential skill building is certainly not the norm in most voice teaching.

To find out more about the Sing Like a Star method please visit [The SLaS METHOD- What You Will Learn.](#)

2. Teaching Mix is a highly specialized skill- one that requires many years of intensive training. This is not a skill taught in University programs. Most voice teachers do not know how to teach Mix. It developed in Los Angeles, with Speech Level Singing, an organization that Tricia was an integral part of. In fact, she wrote their teacher training manual, used all over the world. She was certified at the highest level in SLS- a process that took many years of intensive study beyond Tricia's Master's Degree in Music.

At Sing Like A Star Studios you will learn the vocal technique of the stars from a music industry expert who has been there- Tricia Grey, MM is a professional singer and voice teacher with an unbeatable combination of music degrees, research in vocal science, and 20+ years of professional performing and teaching.

Sing Like a Star studio owner Tricia Grey, MM is an exceptionally qualified voice teacher with a Master's Degree in music and over 20 years' professional experience singing, writing songs, recording, teaching, and performing in the competitive music industry. Tricia sings and teaches in all vocal styles- rock, R & B, gospel, blues, jazz, musical theatre, and country. She is a music industry veteran who knows what it takes to succeed.

Tricia Grey, MM has spent many years researching the science of vocal production and she is an expert in vocal technique and pedagogy. She authors instructional manuals used for training voice teachers throughout the world. She combines her experience and knowledge of the music industry with a formidable educational background for an unbeatable combination. Her life-long study of vocal science, technique, and pedagogy has resulted in a synthesized, unique and powerful approach to vocal training that is unparalleled.

Tricia Grey, MM is an expert on vocal pedagogy and function. (That's why she wrote a book about it!) The Sing like a Star method incorporates the latest research in vocal science. Each exercise given in this developmental program has a specific purpose and is done in a very particular order, for a specific reason. This program really works! The Eight Steps of Vocal Development sequentially and effectively builds skills and coordination, creating new neuro-muscular responses that, with repetition, become lifelong good habits. (That's why we want you to practice!)

OPTIONS FOR STUDY:

HOW TO GET STARTED AND TRANSFORM YOUR VOICE

Take Four Easy Steps To Get Started With This Transformational Vocal Technique:

1. Download, print and read [INFORMATION AND FAQ](#).

Save it for your records. Any questions you have about lessons at Sing Like A Star Studios are answered for you in this document.

2. Click on this link to fill out our [REGISTRATION FORM](#)

This will register you for a GETTING TO KNOW YOU intro lesson, where you will meet with us to discuss your goals, receive a professional vocal evaluation and written feedback about our plan for addressing any vocal challenges, and reserve your regular weekly lesson time in our schedule, if you decide you would like to commit to the lessons.

The purpose of the intro session is for you to:

1. Have your voice professionally evaluated.
2. Receive a plan of action from us based on [The Eight Steps of Vocal Development](#) to address your unique vocal challenges.

3. Discuss your goals.

4. if you decide to commit to regular lessons, to reserve your regular weekly spot in our schedule and prepay for your first month of sessions.

Be sure to indicate on the form which lesson plan you prefer: [lessons with Tricia Grey, MM](#) or the [LESSONS FOR LESS](#). Tricia Grey only does consultations for students wishing to study with her. If you are interested in an Associate Teacher, you will meet with Director of Associates Elaine Drennon Little, and she will assign you to the Associate Teacher who best meets your needs.

Be sure to indicate which studio you prefer: [SLaS East Cobb](#), [SLaS North in Alpharetta](#), or [Online Voice Lessons](#) . Let us know a general day/time preference. We are usually quite booked, but we will try to find a slot that is at least on the same day as your preference.

*Tricia Grey, MM teaches at the SLaS North in Alpharetta studio on Wednesdays and Thursdays. She does consultations at the SLaS East Cobb location on all other days. Online consultations are held every day.

*SLaS Associate Teachers are available at both studio locations and for online consultations 7 days a week.

The GETTING TO KNOW YOU intro lesson does not in any way commit you to a series of lessons, although we hope you will become a Sing Like a Star student! You have the option to start lessons any time after the intro lesson has taken place.

3. Once you have submitted the online registration form you will be contacted by phone and by email (within 24-48 hours) by our support staff with a proposed time for your GETTING TO KNOW YOU intro lesson. This will be the closest available time in our schedule to the time you requested.

You will also be getting a CONFIRMATION EMAIL, with a cc to the SLaS teacher.

Please confirm and REPLY ALL.

1. [If the proposed time does not work any longer](#), immediately reply "not confirmed" to the confirmation email, and discuss it with our Support Staff when you are called.
 2. If the time is still good for you, immediately reply "confirmed".

We bring you a unique and unparalleled combination:

- 1. Over 25 years in the music business working with many of the top names in the**

music industry.

2. The technique of the stars used to develop the powerful, yet natural quality known as "MIX". Mix allows you to sing very high notes without straining, in a powerful yet free voice. Mix is the contemporary sound most sought after in pop music and in musical theatre.

3. Songwriting instruction.

4. Performance opportunities.

5. Connections with the music business.

6. Convenience- you can take lessons using the internet or speakerphone to save driving time.

7. Quick results- you will see immediate changes in your voice and you will reach your goals quickly!

At Sing Like a Star studios you will learn to sing stronger, higher, and with complete confidence, in all styles including gospel, blues, rock, pop, jazz, musical theater, classical, country- with amazing high notes, great power and control, and a healthy vocal technique that will last a lifetime!

Our promise to you: If you practice the recorded lessons every day you will develop a healthy, strong, and powerful voice. You will eliminate vocal strain. You will be able to sing with power whether you are singing low or high. You will learn to mix into the higher registers so your voice will sound like the artists you hear on the radio. We develop a contemporary and natural vocal sound that is hire-able- whether your preference is theatre, R & B, rock, or country. Your range will extend dramatically. You will learn to sing with soul, emotion, and flexibility. Your voice will remain healthy for a lifetime of singing if you continue to practice the principles of good vocal production we will be teaching you at Sing Like a Star.

HOW TO RECORD YOUR LESSONS: Most students are using i-phone, i-pad, or i-touch. Our personal preference is the i-touch: you can store a lot of lessons on it, and still have your phone available for searching for lyrics, etc during lessons. Download the i-talk app for best recording quality for all these devices. **You can also download the Cisco Webex Meetings app to i-phone, i-pad, or i-touch and take a lesson when traveling or short on time. Take lessons from wherever you are with online voice lessons!**
